Dear Stone Street,

Thank you very much for the professional, expeditious way in which you were able to process my settlement on the lottery winnings.

Since my wife and I had won the lottery in 1996, we had been bombarded with calls from agencies wanting to purchase our winnings. Most promised much more than they could deliver. We waited several years before deciding what we really wanted to do. We selected your company because your calls seemed most sincere and you were willing to modify the agreement according to my wishes.

Thanks again for all your help and I look forward to doing business with you after I win the lottery again.

Good Luck
